SUMMARY

Software engineer with a strong foundation in **software development**, **artificial intelligence**, and **machine learning**. Brings proficiency in **Java**, **Python**, **SQL**, and modern web technologies to build **full-stack applications** and **AI-driven solutions**, driving innovative technology to solve real-world problems.

EDUCATION

Geethanjali College of Engineering and Technology 7.77	2023 - 2027
Bachelor of Technology (B.Tech) Artificial Intelligence and Machine Learning	
JCNRM Junior College 92.2	2021 - 2023
Intermediate MPC	
KGN Memorial English Medium School 97.54	2020 - 2021
Secondary School Certificate (SSC)	

PROFESSIONAL EXPERIENCE

Web Development Intern Edzeeta Pvt. Ltd.	May 2025 - Aug 2025
- Developed responsive web pages using HTML, CSS, JavaScript, PHP, and MySQL to boost engagement. - Built and maintained full-stack web applications with a focus on functionality and user experience for users. - Collaborated with team members to implement new features and resolve technical issues, enhancing project outcomes. - Improved problem-solving and debugging skills through hands-on project development, leading to solutions.	
AI & Machine Learning Intern Agnirva Space Internship Program (ISRO Registered)	Jan 2025 - Feb 2025
- Contributed to AI and machine learning projects by performing data preprocessing and model development tasks. - Utilized Python and machine learning libraries to analyze datasets and create predictive models for insights. - Acquired hands-on experience in artificial intelligence concepts, enhancing understanding of real-world applications.	

TECHNICAL SKILLS

Languages: Java, Python, C, SQL, JavaScript, PHP
Frameworks: Bootstrap, TensorFlow, Scikit-learn, OpenCV, NumPy, Pandas, Matplotlib
Developer Tools: Git, GitHub, VS Code, Eclipse, Jupyter Notebook, Google Colab, XAMPP, MySQL Workbench
Soft Skills: Problem Solving, Analytical Thinking, Communication, Teamwork, Adaptability, Time Management, Quick Learning

KEY PROJECTS

RL-Driven Biopsy Site Selection Python, Deep Reinforcement Learning, TensorFlow/PyTorch, OpenCV, NumPy, Pandas	Jul 2026
- Developed an AI-driven biopsy site selection system using Deep Reinforcement Learning to enhance medical imaging. - Performed medical image preprocessing and feature extraction to improve model performance and overall accuracy. - Designed and trained reinforcement learning models to support intelligent decision-making for biopsy selection. - Evaluated model performance using standard machine learning metrics and visualization techniques for insights.	
Parkinson's Disease Prediction Using Machine Learning Python, Scikit-learn, Pandas, NumPy, Matplotlib	Oct 2025
Developed a machine learning model to predict Parkinson's disease using patient data through preprocessing, training, and performance evaluation.	
Wumpus World Using A* Algorithm Java, A* Search Algorithm, Artificial Intelligence	Jun 2025
Developed an AI-based Wumpus World agent using the A* search algorithm to efficiently navigate the environment, avoid hazards, and reach the goal through optimal pathfinding.	

CERTIFICATIONS

Web Development Internship Certificate Edzeeta Pvt. Ltd.	May 2025
Java Full Stack Internship Certificate Skill Dzire	May 2025
National Intellectual Property Awareness Mission (NIPAM) Intellectual Property Office, Government of India	Jul 2026

ACHIEVEMENTS

National Intellectual Property Awareness (NIPAM) Certificate | Intellectual Property Office, Government of India

- Completed the National Intellectual Property Awareness Mission program and earned a certification in IPR.

Summer of AI 2025 Certification | IIIT Hyderabad, Swecha & Meta

- Completed the Summer of AI program, gaining practical knowledge in AI and Machine Learning concepts.

EXTRA CURRICULAR

Design Thinking Workshop Geethanjali College of Engineering and Technology	Feb 2025
